Criteria 1. Deployed: Contingency Operations. Contingency operation means a military operation that: (A) is designated by the Secretary of Defense as an operation in which members of the armed forces are or may become involved in: military actions, operations, or hostilities against an enemy of the United States or against an opposing military force; or (B) results in the call or order to, or retention on, active duty of members of the uniformed services under section 688, 12301 (a), 12302, 12304, 12304a, 12305, or 12406 of this title, chapter 15 of this title, section 712 of title 14, or any other provision of law during a war or during a national emergency declared by the President or Congress.

Criteria 2. Assigned to Warrior Transition Unit (WTU)ⁱ. WTUs provide critical support to Regular Army Soldiers who are expected to require 6 months or more of rehabilitation care and complex medical management in an inpatient or outpatient status and to Reserve component Soldiers who are in need of definitive health care based on medical conditions identified, incurred or aggravated while in an active duty status, in support of Overseas Contingency Operations (OCO) and non-OCO activity.

- **Army Wounded Warrior (AW2).** These Soldiers are classified as severely wounded, ill or injured Service Members (SM). These are category three (3) individuals (amputation, severe TBI/PTSD, limited life expectancy, etc.) as prescribed in DODI 1300.24.ⁱⁱ *(AW2 status is NOT the defining criteria for eligibility of deployment child care support. AW2 Soldiers MUST be currently assigned to a WTU to be eligible).*
- **Non-Medical Attendant (NMA).** A person selected by an eligible Soldier, and approved by the Soldier's attending physician and the Medical Treatment Facility (MTF) commander, who will contribute to the healing and recovery of the Soldier. This individual is placed on military orders which provide certain benefits to the individual. The NMA program is designed for seriously wounded, ill and injured Soldiers who could benefit from the presence and assistance of family or

friends. If the Soldier's primary care manager (PCM) determines that the Soldier is eligible for NMA assistance, then one person, designated by the Soldier, is authorized to serve as a NMA. This person provides additional support as the Soldier recovers, rehabilitates and transitions.ⁱⁱⁱ

- **Soldiers in Transition.** These Soldiers are distinct from Wounded Warriors. They are Soldiers assigned/attached to the Warrior Transition Units/Community Care Units (WTU/CCU) who require at least six months of complex care/treatment/case management.^{iv} They do not meet AW2 criteria for severely wounded, ill or injured Soldiers as their condition is not as severe as those that meet AW2 criteria.

Criteria 3. Deployed: Rotational Forces. Forces allocated to a Combatant Command to execute tasks as assigned by the commander in that commander's area of responsibility for a specified period of time. Forces identified in the Combatant Commanders annual force requirements submission, and validated in the global force management process. *(Note that these Forces must fall under the initial paragraph definition of Operational Deployment. As noted in that paragraph, "Forces operationally employed by Secretary of Defense Orders at their home station or in "prepare-to-deploy order" (PTDO) status at home station are NOT operationally deployed").*

Criteria 4. Deployed: Non-Contingency Operations. Operations that don't meet the definition of contingency operations. For example, humanitarian and civic assistance, which is assistance to the local populace, specifically authorized by Title 10, United States Code, Section 401, and funded under separate authorities, provided by predominantly United States forces in conjunction with military operations.

Criteria 5. Survivor Outreach Services. Care for children survivors of fallen Soldiers.
