

GeoStabilization International values the experience, commitment and discipline that Separating Service Members and Veterans bring to the workforce. That's why GSI is proud to offer rewarding careers and unique training opportunities to our Veterans seeking to make a smooth transition into the civilian sector.

Geohazard Mitigation Technician (Closing date 3/4/2019, locations in all 50 States)

GeoStabilization International's Technicians are the backbone of our company. Everyone at GeoStabilization is here because of the essential work they do that saves people's lives and protects infrastructure. Our Technicians are the hardest working, most tenacious and passionate people we employ. Technicians work under intensive conditions preventing landslides, remediating rockfall events and repairing foundations and bridges in the U.S. and Canada. Our Technicians enjoy working outside on challenging projects in an environment that is constantly changing. This is a career opportunity that has excellent income potential for the right person and can result in field leadership opportunities if desired. Here is a detailed job description:

Overview

As a GSI employee, you will travel the US working on our various soil stabilization, grouting, or foundation projects. GSI will pay for your travel, hotel accommodations and meals. The only thing you need to do is work safely, work hard, help us produce a quality product to keep our customers happy.

Responsibilities

- Move materials on a construction site
- Mix, spray, run hoses, and operate shotcrete or grouting pumps
- Operate drills
- Operate construction equipment such as excavator, all terrain forklifts, man lifts, skid steers, and front end loaders
- Reading and determining measurements
- Maintain a clean and organized construction site
- Working together in a team environment
- Adhere to and support the GSI values

Qualifications

- Any prior soil stabilization, grouting, or foundation mitigation experience **OR**
- Prior construction industry experience for example **OR**
- Prior concrete experience such as a concrete finisher/form builder or shotcrete exp.
- Must not be afraid of heights
- A CDL Class A or a clean Motor Vehicle Driving Record
- The ability to travel
- Reliability and a strong work ethic
- Ability to get along with a diverse group of people
- **We will train the right person**

GeoStabilization International is an equal opportunity employer. Qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, sexual orientation, gender identity, disability, protected veteran status or any other status protected by applicable law.
