

THE BAND STEELE

SIT AWHILE

The Band Steele is passionate to recognize those who serve and sacrifice to risk their lives to lend aid to others—our military service men and women, and our veterans. Inspired by the brave, The Band Steele wrote and released the song, and corresponding music video, titled "Sit Awhile." Filmed at various locations in Atlanta, Georgia, the video highlights the special appearance of an Army Corporal and Operation IRAQI FREEDOM Veteran (8 Years of Service) who co-stars. To assure authenticity and demonstrate heartfelt honor in their sincere tribute, Musa Military Entertainment Consulting (a production company owned and operated by seasoned military veterans with modern tactical combat experience and broad entertainment expertise) was enlisted to offer direction. Canvassing the country in 2019, The Band Steele visited more than 25 military facilities and bases as part of its "Sit Awhile Military Tour." To express their continued support of our men and women of service, Bo and Ben will carry on with the endeavor throughout 2022.

"I don't think a song has ever hit me so hard. Maybe it's the fact that I can relate due to my time in the service and I've done everything he sings in this song. In just the first 30 seconds, I began tearing up...focused...hanging on to every single lyric. I listened to it on repeat for nearly two hours." -- Sgt. XX USMC-Retired

"I am a disabled veteran who fights with PTSD. I have been through four wars, been shot twice, and blown-up once in service to my country. Your music has touched my life, and to be honest, it's saved me once or twice."
