This is a co-branded piece created with The Kibler Group | Keller Williams Partners. You are entitled to shop around for the best lender/real estate company for you. The pre-approval may be issued before or after a home is found. A pre-approval is an initial verification that the buyer has the income and assets to afford a home up to a certain amount. This means we have pulled credit, collected documents, verified assets, submitted the file to processing and underwriting, ordered verification of rent and employment, completed an analysis of credit, debt ratio and assets, and issued the pre-approval. The pre-approval is contingent upon no changes to financials and property appraisal. Make sure you understand the features associated with the loan program you choose, and that it meets your unique financial needs. Subject to Debt-to-Income and Underwriting requirements. This is not a credit decision or a commitment to lend. Eligibility is subject to completion of an application and verification of home ownership, occupancy, title, income, employment, credit, home value, collateral, and underwriting requirements. Veterans Affairs loans require a funding fee, which is based on various loan characteristics. 1- On an IRRRL loan, the Veterans Affairs does not require an appraisal, but NFM Lending may require a drive-by appraisal. Income documentation is not required, but source of income must be verified. 2- Sales price cannot exceed appraised value. 3- In a purchase transaction, reasonable closing costs may be paid by the seller, and the program is available with no points depending on credit profile, collateral, and current mortgage history.
