OPERATION TBI FREEDOM

A PROGRAM OF CRAIG HOSPITAL

Operation TBI Freedom (OTF) is a privately funded program of Craig Hospital, that assists Veterans and active duty military personnel living or stationed in Colorado with traumatic brain injuries (TBI) who have served since September 11, 2001. More than 7,200 military personnel with a TBI will return to Colorado in the next three years. Our program tailors a unique plan for each client that promotes optimum independence, productivity and successful reintegration into civilian life.

Each Veteran is assigned a Military Support Specialist (MSS) who is a Veteran and Certified Brain Injury Specialist. The MSS begins with a comprehensive analysis of the Veteran's needs and concerns. It is the responsibility of the MSS to use all resources—the Veterans Administration, local governmental and non-governmental entities—as efficiently as possible, ensuring no duplication of effort. OTF analyzes complex VA benefits, identifies potential benefit enhancements and assists the Veteran in maximizing his or her access to healthcare and other benefits. OTF has leveraged more than \$5.5 million in services and therapies through our partnerships with military and community organizations.

Services provided or coordinated by OTF include the following:

- Crisis management and counseling
- Employment training and support
- Peer and Family support groups
- Assistive technology devices
- Emergency financial assistance for food and housing needs
- Mentoring
- Medical care
- Parenting classes
- Mental health referrals
- Assistance navigating complicated benefit processes
