Entry-Level – Government Grant Writer – Flex Work From Home

Company: Blais & Associates (B&A)

Location: 100% Remote

Type: Hourly (10-30+ hours per week)

Hours: Semi-Flex (Daytime Hours for Meetings, Flex for Writing)

Base Compensation: \$22 – \$30 per hour (to start), commensurate with experience

B&A seeks skilled and resourceful team-oriented people who want to learn the art and skill of local municipal grant writing.

Do you have experience conducting research, organizing and assembling data, and translating it into persuasive writing? Do you have experience working in or with local municipal entities?

For entry-level grant consultants, we offer 10-30+ hours per week to start, as an independent contractor, with the opportunity to explore employment in the future. Our team is 100% remote and flex – you can work at any time. If you are accountable, responsible, and on-time, you are free to choose how you manage your time and design a schedule that best fits your lifestyle. We are 100% results oriented. Do great work, bring a team player attitude, and the sky is the limit for how much you wish to grow your opportunities with B&A.

Expectations and Path Milestones to Success:

Our organization is steeped in best practices developed over 20 years by successful and established local municipal grant writers. Your B&A Lead Associate will guide you, provide opportunities to learn by doing on “live” projects, and serve as your overall central point of contact.

Tailored to your background and level of experience, we will create a timeline and set of milestones for you to track your training success. Your first 30 days will comprise initial onboarding, orientation, and assignment to a “live” project with a Lead Associate. Our

Director of Talent will also support you, lead training sessions, and answer any questions you may have.

Expectations & Milestones – No Prior Municipal Grant Writing Experience:

- **First 30 Days:** Know where to find and how to utilize grant writer tools, resources, and B&A procedures manuals.
- **3-Months:** Accomplish proficiency in specific sections of a grant writing application. Be able to:
 - Create a project Timeline & Checklist (outline for project).
 - Develop independent sections of Application Narrative with minimal edits needed.
- **6-Months:**
 - Develop most elements/sections of Application Narrative with minimal edits needed.
 - Demonstrate proficiency to develop Application Exhibits (Maps, Charts)
 - Demonstrate capability to lead major sections of a grant writing project, with light oversight by an experienced B&A Lead Associate.
- **9-Months:** Demonstrate the capability to independently lead a grant writing project from start-to-finish (without any oversight).

Your Goal – Key Responsibilities of a B&A Grant Writer:

- Responsible for “start to finish” development, coordination, and submission of multiple custom grant applications and proposals for multiple clients within the same time period. This includes writing executive summaries, budgets, budget narratives, timelines/Gantt charts, project schedules, project scope of work, application narrative (between three to 50 pages of text), letters of support, required forms (e.g. Standard Form 424), etc.;
- Responsible for developing graphics, project site maps, taking photographs of project sites, and developing photo pages with captions;
- Proficiency with tools like Google Earth, US Census Bureau website, California Community Fact Finder, and other on-line research tools;
- Write about complex information in a clear, interesting, engaging way;
- Ability to interview subject matter experts and summarize input; and

- Work with clients by leading conference calls to assist in matching the best funding opportunities with the client needs, occasional site visits, and developing a professional business relationship with client staff;
- Must be able to deliver assignments within quoted project hours.

Preferred Basic Qualifications:

- Bachelor's degree is preferred in English, Journalism, or Communications (or other applicable field);
- Excellent verbal, analytical, interpersonal, and written communication skills;
- Adept at online research and information gathering;
- Proficiency in Microsoft Office (including Word, PowerPoint, Excel, Outlook). We are a PC based firm in support of our clientele; candidates using Apple products must be proficient with MS Office products as training will not be provided;
- Experience with Professional Adobe Acrobat.

Preferred Skills/Experience:

- Experience working remotely;
- Experience working in a consulting environment;
- Experience quickly learning about a technical topic to then be able to write accurately about it; and
- Experience managing multiple priorities.

Professional Skills:

- Ability to thrive in a deadline-driven environment that sometimes requires handling tasks outside of traditional work hours;
- Detail-oriented and precise;
- Responsive to feedback;
- Eager to learn new information;
- Proactive and ability to work independently;
- Strong analytical, problem-solving, and decision-making capabilities;
- Ability to multi-task in a fast-paced environment;
- Superior interpersonal skills including courtesy, professionalism, and a cooperative attitude; and
- Ability to be flexible to handle multiple priorities.

How to Apply:

Step 1: Interested candidates are asked to provide a cover letter and resume.

Combine all required documents into one Adobe PDF file and email to *recruiting [at] blaisassoc.com*

Step 2: Please complete this survey:

<https://portal.cultureindex.com/public/survey/p/t0aLuDeLKwXhIAn>

Step 3: Selection for interview.

About B&A:

We are trusted by cities, counties, councils of government, water departments, police departments, and fire departments to guide and manage comprehensive, grant programs, and to develop project proposals in response to grant funding agencies (state and federal) – ultimately to improve the communities in which we all live.

B&A has a 20+ year history of success as a full-service, client-focused local municipal grant writing, research, and management firm. We have been 100% virtual, remote, and work-from-home since our founding. The majority of our clients are municipal government entities. We specialize in writing regional, state, and federal grant applications and proposals. We have a proven track record winning approximately 75%+ of all proposals we prepare on behalf of our clients.

Experienced – Government Grant Writer – Flex Work From Home

Company: Blais & Associates (B&A)

Position Title: Experienced Government (Local Municipal) Grant Writer

Location: 100% Remote

Type: Hourly (25-40+ hours per week)

Hours: Semi-Flex (Daytime Hours for Meetings, Flex for Writing)

Base Compensation: \$30 - \$45 per hour, commensurate with experience

B&A seeks experienced local municipal-focused Grant Writers to join our team.

For **experienced** local municipal grant consultants, we offer 25-40+ hours per week as an independent contractor with the opportunity to explore employment in the future. Our team is 100% remote and flex – you can work at any time and from anywhere in the world. Local municipal grant writing is a client-focused professional service with strict grant application deadlines. If you are accountable for your work and on-time, you are free to choose how you manage your time and what best fits your lifestyle. We are 100% results oriented. Do great work, bring a team player attitude, and the sky is the limit for how much you wish to grow your career with B&A.

Expectations and Path Milestones to Success:

Our organization is steeped in best practices developed over 20 years by successful and established local municipal grant writers. Your B&A Lead Associate will guide you, provide opportunities to learn by doing on “live” projects, and serve as your overall central point of contact.

Tailored to your background and level of experience, we will create a timeline and set of milestones for you to track your training success. Your first 30 days will comprise initial onboarding, orientation, and assignment to a “live” project with a Lead Associate. Our

Director of Talent will also support you, lead training sessions, and answer any questions you may have.

Expectations & Milestones – Experienced Municipal Grant Writer:

- **First 30 Days:** Know where to find and how to utilize grant writer tools, resources, and B&A procedures manuals.
- **3-Months:** Demonstrate the capability to independently lead a grant writing project from start-to-finish (without any oversight) – see “Key Responsibilities”. You will learn, adopt, and follow the unique B&A process for grant development.

Key Responsibilities of a B&A Grant Writer:

- Responsible for “start to finish” development, coordination, and submission of multiple custom grant applications and proposals for multiple clients within the same time period. This includes writing executive summaries, budgets, budget narratives, timelines/Gantt charts, project schedules, project scope of work, application narrative (between three to 50 pages of text), letters of support, required forms (e.g. Standard Form 424), etc.;

Editors will primarily be expected to edit but are welcome to have drafting and interviewing assignments if they would like more hours.

ASSIGNMENT POSSIBILITIES

- Edit resumes, cover letters, and LinkedIn profiles.
- Rarely, work with clients via Internet or phone to come up with quantified accomplishments and other details to include on resume.
- Identify and incorporate keywords from job listings for which they will apply.
- Draft resumes (both regular and federal), cover letters and LinkedIn profiles for assigned clients in all career fields.

REQUIRED QUALIFICATIONS

- At least one year of experience as an editor with final responsibility before going to press or sending deliverables to clients
- Superior attention to detail and ability to follow directions
- Professional interpersonal communication skills and coachability
- Top organizational skills and reliability
- Strong knowledge of MS Word
- Commitment to working with us for at least one year
- Availability for at least 15 hours a week

PLUSES

- Experienced in crafting resumes and cover letters that get interviews
- Strong understanding of different occupations, especially information technology
- Familiarity with the Washington-area employment scene (federal government, government contracting, nonprofits, lobbying, associations, etc.)

WHY YES

- You will be part of a small, woman-owned business that is, in the words of a recent employee, “very rewarding” to work in.
- You will have a role of key importance.
- You will make a difference in people’s lives every day and feel amazing when you help us earn a five-star review from a grateful client who got a job with your help.
- You will become a world-class writer/editor through practice, training and feedback.

YES Career Coaching & Resume Writing Services values inclusion and welcomes applications by diverse candidates to join our team, which has included staff with roots in Africa, East and West Asia, East and West Europe and Latin America. We love other kinds of diversity as well!

TO APPLY

Please email your resume and cover letter addressed to Ms. Katherine Akbar, president to katherine@yeswriting.com. Thank you in advance.

Software Developer

Overview

Working at USfalcon is about providing exceptional professional services to the DoD and various Federal Agencies. We have been excelling in diverse platforms for almost 30 years and continue to be an industry leader. If you thrive in an organization that values integrity, commitment, stewardship, and service, we want to meet you.

We have an exciting opportunity to join us in supporting one of our valued customers on the COCOM Cyber Mission Support (CCMS) contract as a Software Developer to work out of Colorado Springs, CO.

USfalcon, Inc. is hiring for a program supporting Space and Missile Systems Center (SMC), Space Training Acquisition Organization (STAO). Software Engineers will support development of Modeling and Simulation (M&S) software used for injection of space effects into Air Force and Joint exercises to support Space Crew and other training. Effort will include architecture, front-end, mid-tier and backend design using a variety of technologies in a hybrid cloud, DevSecOps ecosystem. Agile methods are used for tracking and managing projects. Developers design, implement, and maintain operational CI/CD pipelines and software. CI/CD pipelines employ testing and security verification to ensure quality and coding practices. Developers support onboarding additional infrastructure and M&S tools/capabilities as necessary. The candidate should be able to design elegant solutions, solve complex problems, integrate different components, incorporate test into design, and research solutions for collecting, storing, manipulating, and presenting information while embracing open architectures, software and common standards. Training systems can include game-like interfaces or realistic as-is or to-be consoles. Game-play control mechanisms support training efficiencies and include pause, play fwd, rwd allowing for repeat drills/scenarios and time manipulation, while supporting dynamic player interaction. Game-play typically pits an ally against an adversary in the near-earth space domain.

USfalcon is currently looking for candidates with one or more of the following specialties:

Web/Cloud Development: Creates fully functional web applications including front-end, middle tier, and backend as required. Creates graphical user interfaces, including its aesthetics and layouts utilizing CSS, JavaScript, HTML, and a growing collection of UI frameworks. Writes non-UI code that connects front-end with backend services. Designs, implements, backend software, utilizing programming languages such as Java, C, C++, Ruby, Perl, Python, Scala, Go, etc. Integrates developed components with a vast array of services such as databases, data storage systems, caching systems, logging systems, email systems, etc., May involve development of Micro services, Machine Learning, and interactive gaming technologies/frameworks to include DirectX, OpenGL, Unity, Unreal, WebGL and languages such as C, C++, Java, JavaScript and HTML 5, CSS 3, and Swift.

DevSecOps – CI/CD Pipeline Engineering: Builds, deploys, integrates and administers back-end software and distributed systems, using technologies such as Kubernetes, Docker, Terraform, Vagrant, Packer, Vault, Consul, Nomad, Jenkins, Rancher, ELK (Elasticsearch, Kibana, Beats, and Logstash), Node.JS, Microservices, etc. Plans and executes system development and security strategies. Develops best practices and infrastructure as code for continuous integration and continuous deployment (CI/CD) of software development pipelines and production systems. Develops documentation to enable rapid adoption and utilization of standard architectures.

Desktop Development: Works on software applications that run natively on desktop operating systems using Visual Studio, C++, .Net, WinForms, .Net Core WinForms, etc.

Game Development: Builds compelling demos and apps that showcase geospatial workflows and highlight product features using Unity, Unreal, ArcGIS, WorldWind, Cesium, Google Earth, System Took Kit, 3ds Max, Maya, Cinema 4D, Lightwave, Softimage, Blender and other 3D modeling and animation software. Works with Software Engineers to design new game engine functionality. Works closely with other internal product and development teams to comprehend and influence upcoming platform technologies, features, and tools. Defines and completes robust test workflows to validate product

capabilities and ensure acceptable performance and reliability. Creates user documentation and tutorials for developers.

Responsibilities

- Work efficiently and effectively from the office, at home and/or remote locations.
- Collaborate with team members, management, customers and external technical teams to identify/capture end-user requirements, and ensure timely, high-quality solutions
- Flush out technical details/requirements; ensure code quality and security; design for test; assist in code and functionality/usability reviews; troubleshoot, debug, test, maintain and improve software; assist other team members; design, develop, document, analyze, test, integrate, debug, and analyze software and system requirements to provide scalable and reliable services.
- Additional duties as assigned

Competencies

Knowledge and experience in several of the following technologies is required:

- Languages/scripting: C, C++, C#, .NET, XML, PHP, Python, Go (Golang), Groovy, Ruby, Ruby on Rails, R, Rust, Scala, Perl, Swift, Node.JS, NPM, Java, Kotlin, TypeScript, HTML, JavaScript, CSS, WebSocket, jQuery, JUnit, VUE, MATLAB, YAML, JSON, REST, OAuth, PowerShell, Ansible Playbooks, JavaScript Framework (Angular, React, Ember, Knockout, Backbone, and/or Vue)
- IDEs/text editors/diff tools: Visual Studio, Eclipse, VS Code, Sublime, Notepad++, Meld, vim, emacs
- Cloud Development/Services Platforms: Microsoft Azure, AWS, Google Cloud, Platform One, OpenStack
- Agile Management Tools: Jira, Confluence, Microsoft Azure Boards
- Container/Container Management: Kubernetes, Jenkins, OpenShift 4.x, VMWare Tanzu, Rancher, Docker, Dockviz, CRI-O, Podman, Helm, D2IQ Konvoy, Universal Base Image, LXC, LXD
- Ops/Infrastructure: ECK (Elasticsearch, Kibana, Beats, and Logstash), Argo, Maven, Ansible, Puppet, Packer, Terraform, Minion, Linting Tools (Ansible Lint, JSON Lint, YAML Lint), HAProxy, CoreDNS, Pipenv, Cloud Foundry, Zookeeper, Concourse CI, Open Policy Agent, sshuttle, AWS CLI, Podman, Git
- Repositories: GitLab, S3 Bucket, Argo, Vault
- Build and Test: Gradle, Maven, Npm Registry, JUnit 5, Cypress.io, OWASP, Fortify, Coverity
- Monitoring: Elasticsearch, fluentd, Kibana, Prometheus, Kiali, Grafana, Logstash
- Security: Fortify, Twistlock, Anchore, SonarQube, Stackrox, OpenSCAP, OWASP, Argo CD Keycloak, Mozilla SOPS, AppGate SDP, C5ISR CSSP, Helm, IAM, SAML, OAuth, Okta, Ping Identity, Charts/Secrets/Wrappers, Trufflehog, Nessus, Container security, Zero Trust
- Database/Data: Designing, accessing, and maintaining data stores, feeds, and processing tools including MySQL, MariaDB, MS SQL Server, PostgreSQL, MangoDB, Nifi, NoSQL
- Messaging: Pub/Sub, Kafka, RabbitMQ
- API Gateways: Istio, AWS API
- Webservers: Apache HTTP, Apache Tomcat, Nginx, H2O, Caddy, Eclipse Jetty, XAMPP
- Operating Systems: Windows, CentOS, Red Hat, Ubuntu or other Linux distributions
- Architecture Development: DODAF and UML

Qualifications

Required:

The ideal candidate is someone with excellent problem-solving, communication, and interpersonal skills who is able to work in a team environment to build software; handle multiple assignments; synthesize information to solve complex problems; apply knowledge of data structures and algorithms to software engineering problems; develop, diagnose and operate complex computer systems; identify customer needs and validate product design; deliver software that others want to use; and support positive priority escalation and conflict resolution within a team. The following qualifications are required:

- Bachelor's degree in Computer Science or a related field
- Strong verbal and written communication skills and ability to interact with others in a professional manner
- Current DoD 8570.01-M IAT Level 2 certification (e.g., CompTIA Security + or equivalent) or must obtain within six months of hire

Desired:

- Experience supporting DoD Contracts
- Active Security Clearance
- Knowledge of Artificial Intelligence and Machine Learning development
- AWS Solution Architect Associate or Professional or similar certification
- Linux, Microsoft or similar certifications

Clearance: Able to obtain a Secret Clearance; TS/SCI preferred

Travel: Up to 10%

United States Department of State

Opportunities for service members and veterans

Foreign Service Specialists: <https://careers.state.gov/work/foreign-service/specialist/>. These specialized positions are somewhat akin to warrant officers and include positions in IT, engineering (construction and security), and business administration, among others. We do have a fellowship available for IT students, which provides support for two years of undergraduate or graduate study followed by a five year service commitment: <https://www.faitfellowship.org/>. Not all of these positions are open at all times, but interested individuals can register to receive updates.

Foreign Service Generalists: <https://careers.state.gov/work/foreign-service/officer/>. This career path is divided into five career tracks. The **consular** career track deals with issues such as crisis response, citizen services, visas. FSOs in the **economic** career track report on economic trends, support U.S. businesses, follow trade issues, and may be responsible for environmental and STEM diplomacy. The **management** career track manages the embassy or consulate's people, resources, and systems, including the motor pool and housing. FSOs in the **political** career track analyze and report on internal/external political relations, human rights, democracy, security, and socio-political trends. The **public diplomacy** career track is responsible for press relations, social media, education and cultural affairs, public outreach, and exchanges. For those thinking of graduate school, the Rangel and Pickering Fellowships also offer support for two years of graduate study: <https://rangelprogram.org> and <https://pickeringfellowship.org/>, followed by a five year service commitment.

Civil Service: <https://careers.state.gov/work/civil-service/>. Most of these positions are in the Washington DC area. Those interested can apply for positions on USAJobs.gov.

Information on veterans' preferences and benefits can be found at <https://careers.state.gov/learn/diversity-inclusion/veterans-program-office/>.
