

VOLUNTEERS NEEDED

Mattersvillevets.org –Warriors with Wolves

11874 CO-67 Sedalia, CO 80135

Mattersville is a 501 (c) 3

Background: After learning that the Rocky Mountain Wildlife Foundation was closing due to the founders declining health, Mattersville decided to step up and step in to help! Between Nov. 2019 and Jan. 2020, we must move all wolves residing in the Wildlife Foundation over to Mattersville to be cared for by Mattersville staff and Veterans. The first 3 wolves have already been relocated adding to the 2 already with Mattersville

Who: Anyone that has the skills to help our Warriors with Wolves project.

What: We need help moving pens, campers, supplies and equipment from Rocky Mountain Wildlife in Guffey, Colorado to Mattersville ASAP. We also need help building/setting up pens, building/repairing sheds, ground work pickup, cleaning and painting etc. We need individuals who are willing to care for the animals and learn how to give tours.

Where: 11874 CO-67 Sedalia, CO 80135

When: ASAP, any day, any time--however long that people want to come and volunteer. We need your help!

Why: Mattersville, a non-profit aims to open its first home for veterans on the Sedalia property early next year. The organization must still clean up and renovate the house on the land and surrounding acres. The veterans who move into the home will help to care for Mattersville's growing pack. Those who suffer from PTSD will reap the psychological benefits of developing bonds with the wolves and wolf dogs, "The animals are there for them." The animals respond to their symptoms — or what other people call *triggers*. Wolves' senses, in particular, are wildly heightened in comparison to what you consider your traditional canine or household canine."
