## Job Description

### **National Admissions Advisor - CTU Colorado Springs(Job Number: 42828)**

#### **Description**

The National Admissions Advisor, entry-point position, will interface with prospective students in support of their decision to attend/select school. In addition to communicating the philosophy and features of the school and serving as an advocate for prospective students, a National Admissions Advisor must meet the school's quantitative and qualitative goals and objectives, as established, in an accurate, professional, and compliant/ethical manner using school-approved admissions processes and procedures.

- Responsible for developing, managing and meeting action plans in order to obtain personal and departmental student population objectives
- Evaluate monthly activity against standards and personal inquiry goals
- Professionally assists prospective students through the admissions process in accordance with all applicable federal and state regulations, school policies and procedures, and in compliance with all accrediting standards and requirements.
- Conduct telephone interviews and e-mail correspondence to identify student prospects to determine their educational needs, concerns and interests.
- Develop a rapport with prospective students and maintain contact with them frequently.
- Partners with departments outside of Admissions including Financial Aid, and Academics to ensure the delivery of a high level of service to every student including degree programs.
- Consistently operates within, and is measured with respect to, the school's expected behaviors: Execution, Communication/Feedback and Professionalism.
- Ensure compliance with applicable University policies and procedures.

Blackstone Talent Group, an award-winning technology consulting and talent agency is seeking a Cyber Security Engineer to join our team at our client's site in Colorado Springs, CO.

We are seeking a Cyber Security Engineer to join our team in support of the U.S. Air Force North American Aerospace Defense Command (NORAD) Cheyenne Mountain Complex Integrated Tactical Warning/Attack Assessment (NCCMC-ITW/AA) Sustained Support Contract (NISSC). NISSC will provide accurate, timely, and unambiguous warning and attack assessment of Air, Missile, and Space threats with daily visibility of National Command Authority leaders.

Key responsibilities include:

- Planning, scheduling, and executing Assessment & Authorization (A&A) activities
- Security compliance & vulnerability scanning/remediation across multiple platforms and networks

Must be a U.S. CITIZEN with a current Secret security clearance

Required Skills:

- Secret security clearance
- Experience with NIST RMF Information Assurance controls
- At least 2 years of demonstrated experience in cyber security to include any of the following: practices/methodologies, associated technologies, application design, and/or experience in an operational environment including NIST RMF guidelines, directives and security mandates
- Experience using security compliance/vulnerability assessment scanning tool. Experience using Tenable Nessus/Security Center/ ACAS preferred for security compliance/vulnerability assessment scanning but experience with similar products is acceptable
- Hands-on technical experience with documentation skills and experience in some of the following areas:
  - Linux system administration
  - Windows system administration
  - Network component administration
  - VMware administration
  - Operating system hardening
  - Assessment and Authorization (NIST SP800-37, ICD 503)
- Experience performing vulnerability assessment/remediation including the coordination or performance of patch/configuration deployments across multiple platforms
- Security Certification in accordance to DoD 8570.01 IAT-II or higher (e.g. Security+ CE, SSCP, etc.; CISSP is preferable)

Desired Skills:

- Experience with systems engineering V-model process & engineering change proposal processes
- Experience planning, scheduling, and executing Assessment & Authorization (A&A) activities, including the development of System Security Plans (SSP) and other supporting documentation (SP800-37, ICD503 preferred)
- COTS and FOSS patch management/deployment experience

- Experience with highly 'matrixed' organizations and working in an Agile, DevOps environment
- Previous experience in Verification and Validation, and Assessment and Authorization
- Experience in proactively analyzing and resolving problems relating to operational considerations, engineering drawings and associated hardware in relation to repair activities

**Education & Experience Requirements:**

Bachelor's degree in a STEM (Science, Technology, Engineering and Mathematics) discipline with 2+ years of experience or a Master's degree in a STEM discipline or 10 years of experience in lieu of a degree.

Blackstone Talent Group is a division of Blackstone Technology Group, a global IT services and solutions firm that implements technological solutions across commercial industry verticals and the US Federal Government. Blackstone's global talent augmentation practice was founded in 1998. Blackstone Talent Group has offices in San Francisco, Denver, Houston, Colorado Springs, and Washington, DC. We specialize in providing clients the best talent across a variety of industries and sectors.

[twilson@bstonetech.com](mailto:twilson@bstonetech.com)

Blackstone Talent Group, an award-winning technology consulting and talent agency is seeking a Cyber Security Engineer - ENG05 - Cleared On-Site to join our team at our client's site in Colorado Springs, CO.

Key responsibilities include:

- This position performs continuous monitoring updates to RMF artifacts IAW NIST 800-37, 800-53, CNSSI 1253 and AO governing guidance. Assesses and performs updates to Security Assessment Report (SAR) and Plan of Action & Milestones (POA&Ms) for 30 systems of record based on system modifications/compliance validation to change in applicable correlation control identifiers (CCIs)
  - CCIs reviewed per system range from 1,750 to 2,200 dependent on system categorization. Updates are then made directly to eMASS Air Force or eMASS Joint as the AO tool of choice
- Planning, scheduling, and executing Assessment & Authorization (A&A) activities
- Security compliance & vulnerability scanning/remediation across multiple platforms and networks
- Applying knowledge of current IA policies as a contributor to the architecture and design of secure solutions to customer needs and requirements
- Performing hands-on technical implementation of security solutions comprised of COTS & FOSS as well as custom-developed products
- Preparing for, writing, and presenting trade studies, cost benefit analyses, reports and briefings as needed

**Must be a U.S. CITIZEN with a current Secret security clearance**

Required Skills:

- Active secret security clearance
- Six years of developing cyber security solutions, Security Authorization requirements, and security policy and emerging cyber security technologies for Department of Defense (DoD) or similar federal agency
- Experience with cyber security engineering projects and programs for U.S. Government and/or commercial clients
- Strong understanding of security design and architecture with ability to develop solutions to moderately complex IS compliance and security problems
- Hands-on technical experience as an individual contributor with documentation skills and experience in some of the following areas
  - Operating system hardening
  - Assessment and Authorization (NIST SP800-37, ICD 503)
  - Developing System Security Plans (SSPs) and all supporting assessment and authorization documentation
- Experience performing vulnerability assessment/remediation including the coordination or performance of patch/configuration deployments across multiple platforms
- Demonstrated leadership experience with excellent interpersonal skills
- Excellent written & oral communication skills, including presentation skills
- Security Certification in accordance to DoD 8570.01 IAT-II or higher (e.g. Security+ CE, SSCP, etc.; CISSP is preferable)

Desired Skills:

- Experience with systems engineering V-model process, life-cycle management, & engineering change proposal processes
- Experience planning, scheduling, and executing Assessment & Authorization (A&A) activities, including the development of System Security Plans (SSP) and other supporting documentation (SP800-37, ICD503 preferred)
- Experience and knowledge in onboarding, tuning and implementing enterprise security solutions (e.g. Tenable Security Center and Nessus, RSA NetWitness Security Analytics, and the DoD's HBSS solution)
- COTS and FOSS patch management/deployment experience
- Experience with highly 'matrixed' organizations
- Ability to establish tasks and objectives with Lead Engineers and ensure the entire team understands and can work towards the vision and objectives
- Previous experience in Verification and Validation, and Assessment and Authorization
- Experience in proactively analyzing and resolving problems relating to operational considerations, engineering drawings and associated hardware in relation to repair activities

#### Education & Experience Requirements:

- Bachelor's degree in a STEM (Science, Technology, Engineering and Mathematics) discipline with 6+ years of experience or a Master's degree in a STEM discipline with 4+ years of experience or 14 years of experience in lieu of a degree

Blackstone Talent Group is a division of Blackstone Technology Group, a global IT services and solutions firm that implements technological solutions across commercial industry verticals and the US Federal Government. ## Centennial Training Center (CTC) Fort Carson, Colorado

### Housekeeping

#### Overview:

The housekeeper promotes sanitary conditions which prevent the spread of infection and odors. She/he may be required to perform tasks, which involve exposure to visible blood contamination or reasonably anticipated blood contamination. The housekeeper must follow the required procedures for handling, cleaning, disposing, or moving of objects/materials and/or the clean-up of blood, infectious materials, or body fluids containing blood in accordance with the OSHA Blood-borne Pathogen Standard or SRM Policies and Procedures.

#### Physical Requirements:

This position demands good physical and mental health. The housekeeper will be required to lift, carry, walk, sit, push, pull and work a flexible schedule, must be able to move continuously during work hours and able to lift and/or carry 50 to 75 pounds.

#### Duties:

Basic cleaning and straightening of the billeting rooms shall occur. Housekeeping staff shall perform daily and weekly cleaning tasks in the break-room, lobby, corridors, and the student lounge area. Additional 'as needed' tasks, less frequent cleaning tasks, and amplified cleaning instructions are detailed below:

- **Remove Trash & Recyclables:** All wastebaskets and recycle containers shall be emptied, cleaned and returned to their original position every Wednesday and Sunday. Trash and recyclables removed shall be emptied in the outside collection point (trash and recycle dumpsters) using larger, wheeled collection bins.
- **Vacuum, Cleaning, and Spot Treatment of Carpets and Upholstery:** Vacuum the entire carpet area so that all visible litter and soil is removed. Where it is necessary, office furniture, wastebaskets, and easily moved items shall be moved to vacuum underneath. These items shall be returned to their original location after vacuuming is complete.
- **Emergency cleaning of certain areas necessitated by inadvertent spills on the carpet (no matter how large an area) shall be done immediately.** Spills shall be cleaned with cold water immediately so stains will not set in carpet fibers. If carpets cannot be cleaned to standards from a recent spill. Immediately report the incident to the CTC Housing Manager on a Maintenance Request Form. Report all carpet tears, burns, and raveling immediately.
- **Sweep, Vacuum, Mop Floor:** The entire floor surface including corners and abutments shall be swept free of litter, dust, dry dirt and other types of debris. Moveable items shall be moved in order to sweep underneath and then returned to their original

\$12.50 hr

P/T Weekends

8 AM - 4 PM

4 PM - 12 AM

1 X Clerk per  
Shift

**Centennial Training Center (CTC) Fort Carson, Colorado**

**DESK CLERK**

**Overview:**

This position must provide clean, sanitary comfortable, orderly and satisfying surroundings for the students. The desk clerk promotes outstanding customer service and sanitary conditions which prevent the spread of infection and odors. The main goal of the desk clerk at FLETC is to handle student complaints, concerns and needs in a positive manner, while providing extraordinary service.

**Physical Requirements:**

This position demands good physical and mental health. The desk clerk will be required to lift, carry, walk, sit, push, pull and work a flexible schedule, must be able to lift up to 50lbs in order to take out the trash.

**Duties:**

- General knowledge of computers
- Excellent interpersonal/communication and customer service skills
- Maintains professional appearance and demeanor at all times
- Moderate bending, stooping, reaching above/below waste, pushing/pulling movements, standing, kneeling, sitting, walking, lifting and typing may be required.
- Greets, checks-in, issues keys and serves students
- Responsible for proper key control and security measures
- Responsible for proper telephone etiquette at all times
- Responsible for passing down anything and everything that happened to following shift via pass-down log book and verbal communication. (This is very important)
- Report all maintenance concerns and student complaints properly
- Responsible for disposal of trash, waste, and other disposable materials.
- Empty trash containers daily.
- Wet mop floors in all student centers/lobbies and bathrooms daily.
- Clean bathrooms in center/lobby (including commodes, mirrors, floors, etc.)
- Report any needed repairs immediately to maintenance (such as leaky faucets or toilets, loose tile, broken window panes, missing nuts or screws, beds needing repair, etc.).
- Use safety precautions in all housekeeping services.

**Job Title:** Service Technician

**Reports to:** Service Manager

**FLSA Status:** Non-Exempt

**Your Role:**

Responsible for fixing commercial and industrial boilers and ancillary equipment by performing boiler inspections, troubleshooting equipment issues, and performing service calls. You will represent the company with a professional appearance and fun, positive attitude. Excellent customer service is a must to be successful.

**In this position, you will:**

- Make excellent customer service a priority by pleasing our customers, providing thorough and timely recommendations, and top-notch service.
- Perform service calls, perform inspections, identify equipment malfunctions, and provide solutions.
- Optimize boiler room operations, troubleshoot equipment faults in a timely manner, and conduct preventative maintenance.
- Perform start-ups on boilers and ensure equipment is brought online to run safely and correctly.
- Identify aging equipment and talk to customers about upgrade options.
- Lead internal teams on projects and instruct junior techs.
- Follow all safety practices and remain updated on applicable certifications.
- Travel up to 50% of the time as required.

**Skills, experience, and qualities that will help you be successful:**

- High school diploma or GED is required.
- Must be mechanically inclined.
- Be a self-starter and can work unsupervised.
- Ability to manage and adapt to change, adjust to changing priorities and deadlines.
- Must be able to think on your feet and trouble shoot.
- Ability to communicate effectively and work with a variety of personalities.
- Have a desire to learn and develop yourself.
- Must have a valid driver's license.
- Must be able to pass a drug and background test.

**Physical demands and work environment:**

Must operate within the context of established objectives.
